Rough spots in town

Published: Friday, October 20, 2006 11:22 AM CDT

To the Editor:

Rex Nelson's article on the visual impact that visitors might encounter and, subsequently, draw their own conclusions about Arkadelphia, which was not very favorable, moved me to write, also.

I, too, have a few derogatory comments about our fair city. We have two well-used streets where the look and the ride are deplorable. These streets are Caddo, from 12th to 10th, and 6th, from OBU to Caddo. An inch or so of blacktopping could do wonders there.

Also, on Caddo, from Goza Middle School to the library, the telephone wiring pedestals stand like drunken sailors or worse, but if they were standing at attention, they would go unnoticed!

Bob Palmer
